

MEC Toileting Policy

MEC Toileting Policy (2019)

At MEC, we are committed to the safety of every child, deserving the confidence of every family, and to being honest and transparent in our actions. These toileting policies have been developed to help children, parents and leaders to feel comfortable with what will happen if a child needs to use the toilet.

If the child is not toilet trained:

If a child needs a nappy changed, or has had an accident, we will bring them back to the parents straight away. We will not change your baby's nappy, or change your child's clothes.

Creche or Infants:

If the child is toilet trained, and in creche or Infants, a leader will walk the child to the outside of the toilet. We will not go in with the child. We will wait at the outside door of the toilet area and ask them if they are OK at each stage. If they need help toileting, we will come into church and find their parent. We will not toilet your child or be in the cubicle with them.

Primary School Aged or older:

If the child is in Primary Sunday School or Junior Vine, we will send them to the toilet by themselves and follow up if they have not returned in a five-minute period. If there are concerns, leaders will talk to them from the outside and will not be in the toilet area with older children.

If there are areas around this policy that you would like to discuss, speak to your child's leaders or the Children's Ministry Coordinator (accounts@maitlandchurch.org)
