

MEC SRE Review 2022

All SRE teachers and helpers completed a Google doc survey in Term 3 of 2022. There were 18 members of our team, divided into the following roles:

My role in SRE (check all that apply)

15 responses

They self-reported the following levels of experience with SRE in NSW Public Schools:

Experience in SRE

15 responses

The following graphs represent responses across a number of key areas:

Behaviour management

This data indicates that there is one person on our team who is struggling with different aspects of behaviour management. A flaw of the survey was that it is not possible to tell if they were an SRE helper (who would not be required to do much behaviour management), a new teacher, or a more experienced teacher.

The rest of the team seems to have more confidence in dealing with the situations in which they found themselves.

Plan of action: To continue to include information and discussion on specific behaviour management strategies as aspects of SRE training events.

About the new GodSpace curriculum

Plan of action:

- Include orientation to lesson plans in the training events (including how to choose activities to suit each teaching situation). This will again include the distribution of pre prepared USBs to help those who are less confident with lesson preparation or technology.
- Promote mentorship within the group, whereby experienced teachers in each school are proactive in engaging newer teachers and making sure that they feel confident and see success from their teaching
- Promote exiting resources (especially those available through Dropbox) and mentorship
- Promote facets of the curriculum that are being underused

About my teaching

Plan of action:

- To continue doing what has been happening in the regular meetings
- Utilise the prayer group on Messenger more effectively
- Explicit teaching on how we pray for SRE in our devotion time in meetings

MEC SRE Team

Plan of action:

- There is always room for improvement, and there are one or two team members who are neutral on each measurement of team health. The plan is for more informal individual follow up and recognition through MEC prayer notes.
- Make sure that team meetings reflect a healthy and positive dynamic that promotes helpful relationships with each other, our SRE teams and DEC staff
